

BIRTHDAY PARTY INFORMATION

For your next Children's Birthday Party, contact us and we can help you plan a memorable event.

12 year old birthday party -parent: *"We really appreciate your efforts in providing fabulous food and an extraordinary experience for all the boys. Thank You. They were genuinely amazed to view Saturn and learnt a great deal. We are thinking it has been the best party ever!"* Birthday Young Man: *"To the good people at the Ballarat Observatory, It's hard to express my appreciation in words, I had a truly amazing experience and I'm almost certain everyone that came did too. Thank you so much for giving your time to make my birthday truly special. "*

Self Catered Party: The cost per child is \$12 which covers rocket launching (below), 3D movies and viewing at the Telescopes (below).

Observatory catered party: Cost is \$25 per child which cover the above plus a variety of party food, including a party bag with an astronomical theme, and a solar system birthday cake or a Jupiter Icecream Cake.

We have extras such as glow wristbands, wands and necklaces, also a great little Flying Prop which flies similar to a Frisbee (below) but launched vertically, which is lots of fun for children (and adults). Image below shows eager birthday party participants viewing a first quarter moon, a great experience for little ones.
